Thermal Materials Tgon 9000 EOL Notification

October 1st, 2019

Dear Customer:

This letter is to inform you that Tgon 9000 graphite material will be transitioning through an end of life process. The last date to submit a purchase order for these materials will be **March 1st, 2020** with a final ship date of **May 30th, 2020**.

The primary reason for implementing EOL status is because of limited demand. There is no replacement material available through Laird for Tgon 9000. We apologize for any inconvenience this may cause.

This notice does not pertain to any Laird multifunctional solutions that contain Tgon 9000. These products will continue to be supported by the MFS team.

Please check with a Laird representative if you have questions. Any requests for exceptions to this notice, must be submitted for approval in advance of the March 1st date. No exceptions will be reviewed after that time.

We thank you for your continued business and support.

Erin Swanbeck
Product Manager, Thermal Materials
